

Your Home Search

Everything you need to know about how we'll find your dream home.

MLS:

Multiple Listing Service used by all real estate agents. This official record of properties is the **most reliable source** for home information.

(Don't wait for Zillow or Trulia—they can run **days behind** the MLS!)

AUTO
SEARCH:

Hundreds of homes come on the market each day. To ensure you see every option, we will use an Auto Search to **send you homes daily**. As soon as a home appears on the MLS with your requirements, our search will send them to you.

HOW DOES IT WORK?

We'll use your property requirements to create a custom search that filters homes from the MLS.

Define your Auto Search by specifying features that are essential to you.

Just Remember: The more specific your search, the fewer homes you will view!

LOCATION:

By Zip Code or Area

BEDS & BATHS:

Minimum of Each

PRICE POINT:

Keep Negotiating in Mind

SCHOOL:

School Zone

PARKING:

Garage / Parking
Spaces

HOME SIZE:

Square Footage

LOT SIZE:

Acreage

SUBDIVISION:

Subdivision /
Neighborhood

DON'T FORGET:

More Search Parameters = Fewer Homes Sent to You

In order to browse the largest selection of possible dream homes, a broader search is recommended.
